OPERATION: HEALTH CARE WAGON

The Campaign for a Better Tomorrow

GRASSROOTS SPONSORSHIP PROPOSAL PACKET

To whomever this matter will concern:

I am writing to you on behalf of The Campaign for a Better Tomorrow (“CBT”); a small grassroots not-for-profit organization. CBT is currently in process for deploying OPERATION: HEALTH CARE WAGON, which is a collaborative effort between CBT and REMOTE AREA MEDICAL (as featured on CBS/60Minutes)

OPERATION: HEALTH CARE WAGON; our objective is to transport New Englanders who cannot afford Health Care for one reason or another (Uninsured, Under-Insured, or Impoverished) to Remote Area Medical’s Facilities in Tennessee. Our goals are threefold; to distribute NO-COST health care (Medical, Dental, and Vision Care) to those in need; provide NO-COST follow-up care for those patients; finally to increase awareness of the Health Care Crisis on a national scale to influence change within the Health Care Sector.

We are committed to good, normal, everyday people that struggle just like the rest of America, we want to make sure that families worry about getting help, not worrying about how to pay for it. In today’s day and age is a horrible shame that we have people in need of health care suffering in silence, it is time that their voices are heard.

Here at the CBT, we are constantly attempting to find new ways to educate people about this travesty. This means that we are perpetually seeking sponsorships and potential partnerships that can further our cause.

CBT, wishes to extend an invitation to you... We invite you to help your fellow man. We wish to make you a Partner for Sponsorship, your contribution will go directly into funding OPERATION: HEALTH CARE WAGON, and it’s essential operations (I.e. Buses, food, Volunteer Recruiting, and etc...) On the following page we listed the various benefits of your Partnership with our Organization.

If you can, Please join us as Pioneers of Change, a project of this scale should draw some attention to the overall cause and all those who help get it there.

From all of us here at OPERATION: HEALTH CARE WAGON, and all of our Patients, we want to sincerely thank you for your time and consideration.

Sincerely,

Jim M. Lackovich, Jr.
Founder/Director
